# Address List Review 1999 Materials Request

---

The Census Bureau asks that you indicate your preference of how you want to receive your Address List Review materials. Return this form to your regional census center within two weeks after receipt. Note: If you are requesting the listings in computer-readable format, you must specify whether you want CD-ROM or diskette.

The paper address list will contain 15 addresses per page and therefore will be a very large and heavy listing for those communities with large numbers of housing units. If you have personal computer capabilities or a data processing organization, we encourage your community to work with computer-readable versions of the address list instead of paper. Please check your selection below.
